### Course Description:

Therapeutic Services Clinical Specialties I & II are credit courses designed for senior students who have completed the first year of Therapeutic Services. These courses allow students to gain an understanding of the healthcare setting and explore the roles/responsibilities of the nursing/health assistant and care team. These courses expand on safety, legal and ethical issues, communication, cultural diversity, infection control and other topics covered in Therapeutic Services I. Students will practice hands-on skills in the lab, then apply those skills in a real-world setting. Students will acquire a knowledge base to prepare for postsecondary education or begin a career in the healthcare field.

### Course Objectives:

Upon completion of this course, students will be able to:

- Apply resident/patient-care skills acquired in the lab to a real-world setting such as a long-term care facility or hospital.
- Continue their education with a solid foundation of healthcare knowledge.
- Obtain an entry-level position in the healthcare field.

### Major Assignments:
